Hands-on Learning

Hands-on experience is always an excellent way to complement and reinforce what is learned in class. We have internship and work placement programmes and are always on the look-out for opportunities to give students relevant practical experience.

Articulation & Advanced Standing

Academies Australasia colleges have arrangements with leading

higher education institutions whereby courses qualify for transfer credits. Universities where our graduates have successfully completed degrees or with which we have articulation arrangements include Charles Darwin University, Charles Sturt University, Curtin University, Deakin University, Federation University, Griffith University, James Cook University, Macquarie University, University of Canberra, University of New England, University of New South Wales, University of Tasmania, University of Technology Sydney, University of Sydney, University of Western Australia and Western Sydney University in Australia, as well as universities in Canada, the UK and Singapore.

Partnerships

Academies Australasia has strong alliances with highly regarded education institutions in Australia. For example, for many years Academies Australasia has collaborated with Blue Mountains International Hotel Management School to offer programmes for their students before they move on to specialised hotel management programmes. Overseas, partnership arrangements are with prestigious institutions such as California State University Monterey Bay (USA) and Fontys International Business School (Holland).

We are looking at expanding further in Australia and overseas.

Really knowing 'International' and offering more than just Australia

Over the years, Academies Australasia colleges have taught more than 100,000 students from 127 countries. The majority of our faculty and staff were born overseas. This background and sensitivity to cultural differences, needs and expectations, make them very well placed to understand and assist students from overseas. They know the issues and how best to address them. And they care.

We have taught students in many countries – including Cambodia, China, Indonesia, Papua New Guinea, South Korea and Thailand.

At any one time, our students are from about 60 countries. This wide international mix exposes students to different nationalities and cultures. They establish friendships around the world.

Academies Australasia Graduates

We are very proud of our graduates. They have found success in a wide range of professions and businesses – in Australia and overseas.
