**THINK OF
TOMORROW**

WE
MAKE IT

POSSIBLE

INFORMATION TECHNOLOGY

Our nationally accredited Information Technology courses are for anyone who requires specialist skills and knowledge to administer and manage information and communications technology (ICT) support in small-to-medium enterprises (SMEs) using a wide range of general ICT technologies. Persons working at this level apply a wide range of higher level technical skills in ICT areas such as networking, IT support, database development, programming and web development.

Our graduates are eligible for student membership at Australian Computer Society (ACS). The ACS is the association for Information and Communications Technology (ICT) professionals, with a large and active membership from all levels of the ICT industry. The ACS is the public voice of the ICT profession and the guardian of professional ethics and standards in the ICT industry, with a commitment to the wider community to ensure the beneficial use of ICT. The ACS is a member of the Australian Council of Professions.

COURSE INFORMATION

Our Information Technology courses have been developed according to the requirements of the Information and Communications Technology Training Package (ICT15) and have been approved for delivery by the Australian Skills Quality Authority (ASQA). They are nationally recognised qualifications within the Australian Qualifications Framework (AQF).

STUDY PATH

Training is delivered in stages which correspond to AQF Levels IV to VI. The preferred pathway for a qualification is for students to complete the requirements of the previous level qualification before progressing to the next level – thereby achieving more than one qualification.

Applicants without the previous level qualification will be considered if they have relevant qualification and/or vocational experience. Please contact the College for more information.

We aim to equip our graduates with the necessary skills and knowledge to enable them to successfully satisfy the demands of the workplace.

COURSE DELIVERY & ASSESSMENT METHODS

Delivery and assessment strategies are selected to reflect the nature of the elements and performance criteria of the competency together with the needs and learning style of the participants. Qualifications are delivered over 20 hours per week, 16 hours face-to-face and 4 hours online learning.

Assessment methodology may include but is not limited to: observation, project/report, case study, role play, exercises, activities; and written/oral tasks including multiple choice, questions and answer, essays, true/false and presentations.

ACADEMIC YEAR / START DATES

Don't miss out on your intake dates. There are 36 teaching weeks per annum with the year being divided into 4 terms of 9 weeks each. The academic year begins in late January and ends late November. Primary intakes are at the beginning of each term.

YEAR	TERM 1 INTAKES		TERM 2 INTAKES		TERM 3 INTAKES		TERM 4 INTAKES	
	PRIMARY	MID-TERM	PRIMARY	MID-TERM	PRIMARY	MID-TERM	PRIMARY	MID-TERM
2018	15 JAN	19 FEB	09 APR	14 MAY	02 JUL	06 AUG	24 SEP	29 OCT
2019	14 JAN	18 FEB	08 APR	13 MAY	01 JUL	05 AUG	23 SEP	28 OCT

Choice of subjects may be limited in mid-term intakes

ENTRY REQUIREMENTS

Year 11 or equivalent certificate of senior secondary education.

Recommended English Level: IELTS 5.5 (If the level of English is insufficient, a suitable course can be organised.)

OTHER FEES

Administration Fee (Non-refundable):
> A\$ 300

Confirmation of Enrolment Fee (Non-refundable):
> A\$ 20 for a course no longer than 12 months
> A\$ 40 for a course longer than 12 months

INFORMATION TECHNOLOGY

Qualification	Subject	Competency	Tuition Fee / Duration			
Certificate IV in Information Technology (ICT40115) CRICOS Course Code 086524E	WHS and Sustainable IT Environment	ICTICT202 BSBWHS304	Work and communicate effectively in an ICT environment Participate effectively in WHS communication and consultation processes	A\$ 2,000 per term 3 Terms 9 months / 27 college weeks		
	Network Topologies	BSBSUS401 ICTNWK516 ICTNWK517	Implement and monitor environmentally sustainable work practices Determine best-fit topology for a local network Determine best-fit topology for a wide area network			
	Server Management and Documentation	ICTNWK401 ICTNWK412	Install and manage a server Create network documentation			
	Copyright and Ethics	ICTICT418	Contribute to copyright, ethics and privacy in an ICT environment
