EARLY CHILDHOOD EDUCATION AND CARE

WE
MAKE IT

POSSIBLE

EARLY CHILDHOOD EDUCATION AND CARE

Early Childhood Educators assist in caring for the social, emotional, physical and educational needs of infants and young children in various care settings. Early childhood Educators can have a profound influence on a child's wellbeing and development especially in the years of 0-5.

Qualifications in Early Childhood Education and Care focus on the core skills, knowledge and experience required to effectively assess the strengths and interests of children designing meaningful experiences that facilitate the child's growth and development.

The Certificate III in Early Childhood Education and Care (CHC30113) will provide you with the knowledge and skills required to use organisation policies, procedures and individual children's profiles to plan activities and provide care to children, facilitating their leisure and play and enabling them to achieve their developmental outcomes. A great program to start your career in child care!

The Diploma of Early Childhood Education and Care (CHC50113) qualification reflects the role of early childhood educators who are responsible for designing and implementing curriculum in early childhood education and care services. In doing so they work to implement an approved learning framework within the requirements of the Education and Care Services National Regulations and the National Quality Standards.

COURSE INFORMATION

The Qualifications in Early Childhood Education and Care have been designed to provide students with the opportunity to learn and practice the fundamental knowledge and skills required to work within the early childhood education sector. The qualifications are delivered by Supreme Business College with specialists of Benchmark College (RTO Provider No: 90274). Benchmark College is also part of the Academies Australasia group.

We aim to equip our graduates with the necessary skills and knowledge to enable them to successfully satisfy the demands of the workplace.
